RELEVANT EXPERIENCE (3 years)

[Double AI](#), Bangalore — Product Designer

Dec 2025 - PRESENT

Double AI is a AI twin agent for B2B. With our icp being sales teams. Double ai is an AI twin creation and digital business card saas that uses user data to create an AI twin that speaks and replies in using users knowledge. Potential visitors to the business card can talk to the AI twin agent in text and voice and get their questions answered before scheduling a real meeting.

[Quilo](#), Bangalore — Product Designer, developer

June 2025 - Dec 2025

I built and launched Quilo: chrome extension and integrated web app. It is a Google Chrome extension that streamlines AI-driven workflows. Grew the product to 600 active users. Led end-to-end product design: research, interaction flows, high-fidelity prototypes, and reusable components with variables. Shipped with Next.js, Vercel, React, Tailwind, and Manifest V3.

[Maruti Suzuki](#), Gurgaon — Product Designer

June 2023 - June 2025

Managed the design for in-car software: Suzuki SmartPlay Pro X (shipped in [Maruti Suzuki Victoris](#)) and the U3K digital instrument cluster (upcoming Wagon R). Produced extensive competitive research, interactive prototypes, and component libraries; partnered with design managers and engineers to validate concepts and ensure manufacturability.
